We are proud to announce the fifth *vinyl only* release on our dearly beloved label **SUPERB recordings**. Continue with the second EP from our cologne artists **IASI**.

Acid-S and **Roughnic** met in late 90ies through producing and DJ-ing. They organized underground parties and developed their skills of music. **Acid-S** worked in studios like Akropolis (**EMI**, **BMG**), X.1 (**WDR**, **Kraftwerk**) and Sinsport (**Groove-Attack**, **Interworld**) as a producer and engineer. **Roughnic** is a member of the **Riddim Box** Crew and played DJ bookings from Poland to New York, represented **IASI** on his support gigs for **SBTRKT**, **Zed Bias**, **Benga**, **Chase & Status**, **Example** or **Skrillex**. The science of pattern, drums and futuresound are their common sense but their second EP continues this mysterious & timeless three EP's saga exclusive for SUPERB with four supercool tracks. 4/4 Techno/House and Bass Music. Highly recommend by **Ryan Elliot**, **Tiga**, **DJ Rum**, **LA Williams**, **DJ Jus-Ed**, **Submerged Sounds**, **2nd Drop**, **Red Pig Flower**, **Carlos Nilmmns**, **DJ Trax**, **Trus'me**, **Rivet**, **Hannah Holland** ... the list is large.

Their first successful Live Gigs in Germany, make **IASI** touring this summer in Europe.

After mastering by **CGB** from Dubplates & Mastering the "**Verify EP**" will be available through selected record stores worldwide. There will be limited to 300 copies in black.

Not just for your aural delight SUPERB continue the 100 limited advance copies in spicy red marbled vinyl with an additional artwork print designed by Tessa De Ceuninck.

To be SUPERB means also to be innovative. We have the honour to be the first Label including Recordcards with unlimited space for the collectors and DJ's. Here you will find bonus material like explicit Videos, Tracks and Remixes. So tell your listeners to do a pre-order.
