We would love to continue our **Berlin** story of deep electronic interpretations for the **international** market. After the quick sell out at **hardwax, juno, syncrophone (Paris), technique (Japan)**, the second **SUPERB recordings** release by our man in **Paris TOM JOYCE**, was without a doubt a success. Notorious **decks records** placed us on the Dub Techno Charts at **Number 1**. So here we go again, back on track with our new signing **MARKUS MASUHR** with his markable cold winter sound for the big dancefloor taking the rough with the smooth from scandinavia to russia.

From the deep and raw side of techno comes the artist **MARKUS MASUHR**. He lives in **Leipzig/Germany** and is the labelboss of "**Pragmat**" and the netlabel "**Insectorama**". **Markus** started with electronic music in 1993 with friends at a youth club and illegal parties in **Leipzig**, he went on spinning techno records.

When turning to produce electronic music himself in 2003, he chose to express his versatile style preferences in his own works as well - making tracks and live acts ranging from deep techno with dub elements to raw techno. In the last years he has published on countless labels [**Pragmat/Insectorama/Nulabel/Deepindub/Tropic...**]

He himself describes his sound as techno, that you feel approaching from the rear of the hard but deep with chords echos and delays in a 4/4 pattern dubtechno construct. We are proud to expand our **SUPERB recordings** family with two epic tracks from **MARKUS MASUHR**, a very talented dj & producer. He has the right positive drive and experience to hit the stores with your help and become the next **SUPERB** episode **003**.

The tracks are mastered by **CGB** from Dubplates & Mastering Berlin. Limited to 300 copies in black, plus 100 limited advance copies in grey marbled vinyl including a print designed by **Tessa De Ceuninck**. "**Tamur EP**" will hit different selected record stores worldwide in March 2013.
